

CONGRESSIONAL BATTLEGROUND SURVEY

June 7-10, 2021

SURVEY METHODOLOGY

The following battleground survey was conducted by OnMessage Inc. in 16 Congressional Battleground districts. Telephone interviews were conducted on June 7-10, 2021. This survey consists of 1200 likely general election voters and was stratified to reflect historical voter trends. The margin of error for this survey is +/- 2.82%.

To gain a better understanding of the results we separated the states into the following buckets.

| True Swing | Safe R | Trump Offense | Hispanic Districts |
|------------|--------|---------------|--------------------|
| CA-48 | MN-07 | ME-02 | CA-21 |
| IA-03 | MT-AL | NJ-03 | FL-26 |
| MI-08 | NY-11 | PA-08 | NM-02 |
| VA-02 | OK-05 | WI-03 | TX-23 |

Thinking about the 2022 election for Congress, please tell me which of the following candidates you would be more likely to vote for.

A republican candidate who would be a check and balance on the Biden Administration and congressional Democrats.

A Democrat candidate who would work to pass Joe Biden and congressional Democrats' agenda.

Biden Spending

As you may have heard, Joe Biden has proposed a spending bill that he calls The American Jobs Plan. Based on what you have heard do you favor or oppose the plan?

AMERICAN JOBS PLAN

AMERICAN JOBS PLAN

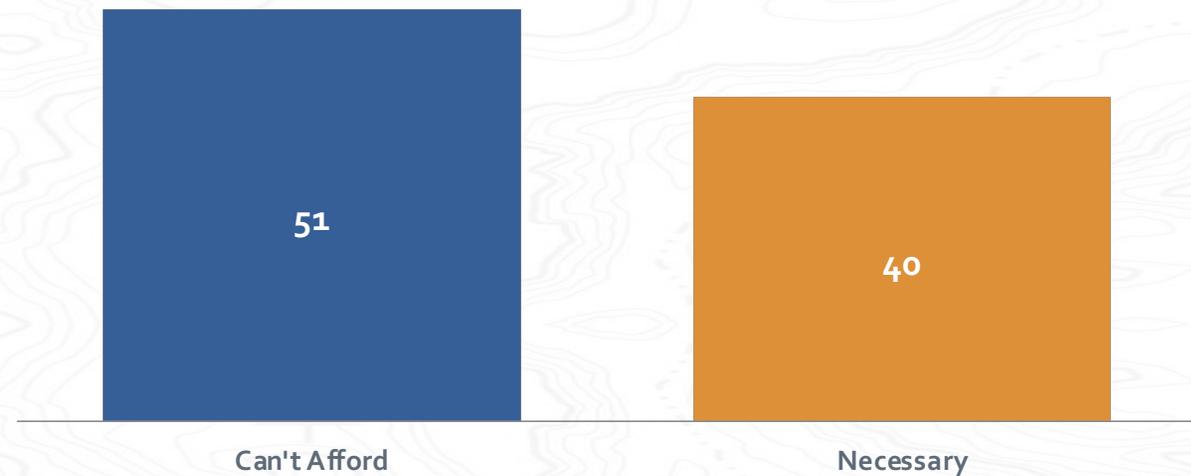

As you may know, Joe Biden has proposed an increase in Federal spending of over 11 trillion dollars over the next ten years. With this in mind please tell me which of the following comes closest to your opinion.

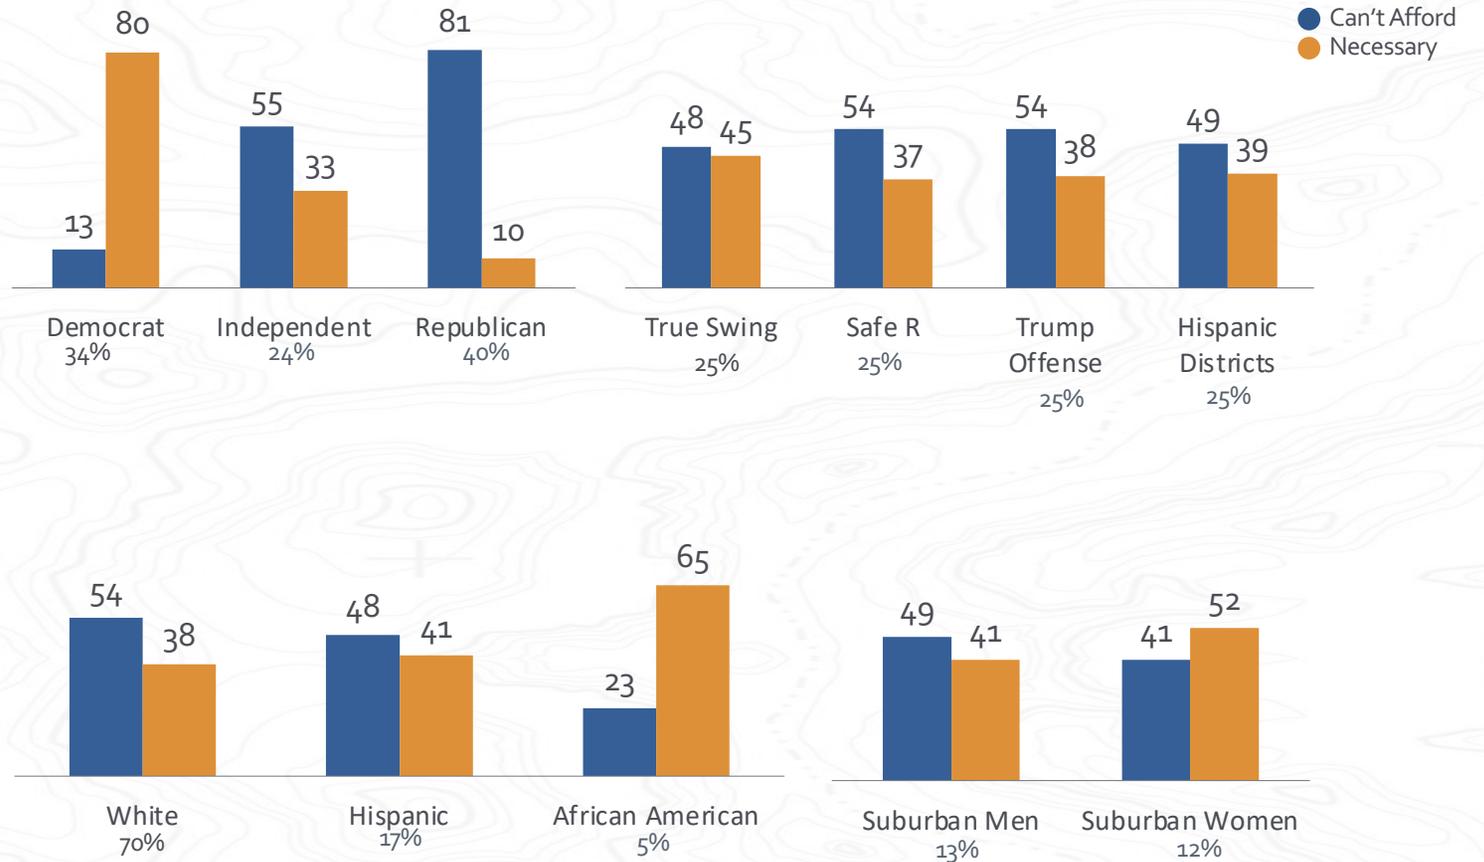

Some say that America is already 28 trillion dollars in debt and we cannot afford to increase spending this much. They say that we are already experiencing inflation that will only increase to catastrophic levels if federal spending continues to increase.

Other people say that this increase in federal spending is necessary to help American families get back on their feet after the pandemic. They say that the increased spending will create thousands of good paying jobs while rebuilding our infrastructure and putting our economy on better footing.

FEDERAL SPENDING

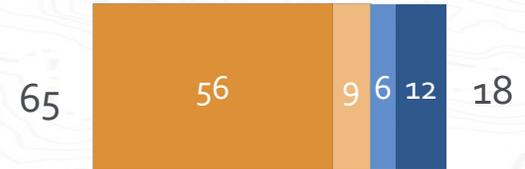

FEDERAL SPENDING

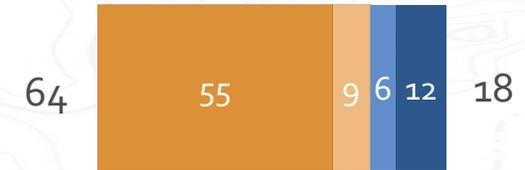

BIDEN SPENDING SERIES

Less Likely ← → More Likely

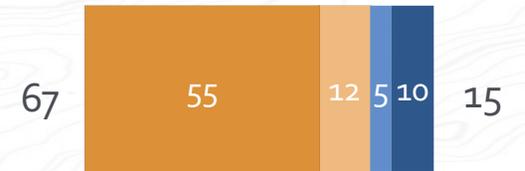

The proposals will increase the cost of energy and gas for everyday Americans by reducing domestic energy production and making us more reliant on countries like China, Russia, and the Middle East.

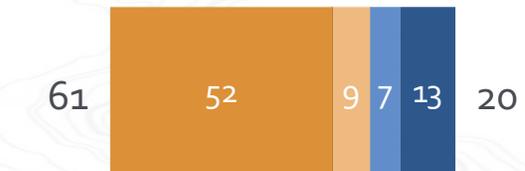

Democrats' proposals will raise taxes on most Americans, raise the cost of living for all Americans, and would limit economic growth.

Democrats want to send billions of dollars to unelected bureaucrats in Washington who will choose which projects to invest in with zero accountability or transparency to the American taxpayer.

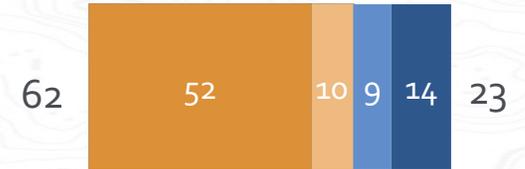

The Democrats' proposals have already been tried and failed in California. They amount political spending with payouts to unions and favored Democrat groups. It forces unionization, eliminates right to work laws in 27 states, and eliminates independent contractors.

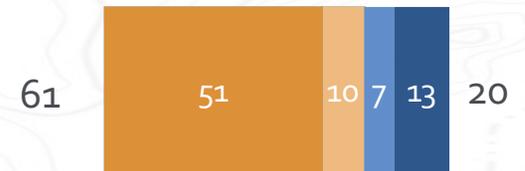

BIDEN SPENDING SERIES

Less Likely ← → More Likely

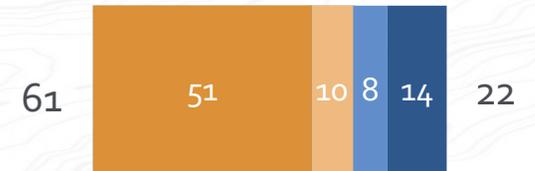

The proposed Biden spending will be paid for by raising taxes AND by increasing the deficit, putting more debt onto future generations.

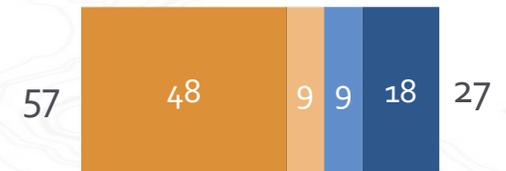

Many experts say that Joe Biden’s massive increase in spending is causing inflation to skyrocket, greatly increasing the cost of living for middle class Americans.

Only 7% of Biden’s Infrastructure Plan goes to traditional infrastructure. Electric vehicle recharging stations for the rich get more funding than roads and bridges for all Americans.

Both Joe Biden and Republicans in Congress have proposed their own infrastructure spending programs. The difference is only Joe Biden’s would result in significant tax increases to pay for it.

Big tech companies abuse their power and influence for political purposes like when they banned President Trump from using their platform to reach the American people. This type of abuse should be ended with a new reform law that requires fairer content moderation.

BIG TECH MODERATION

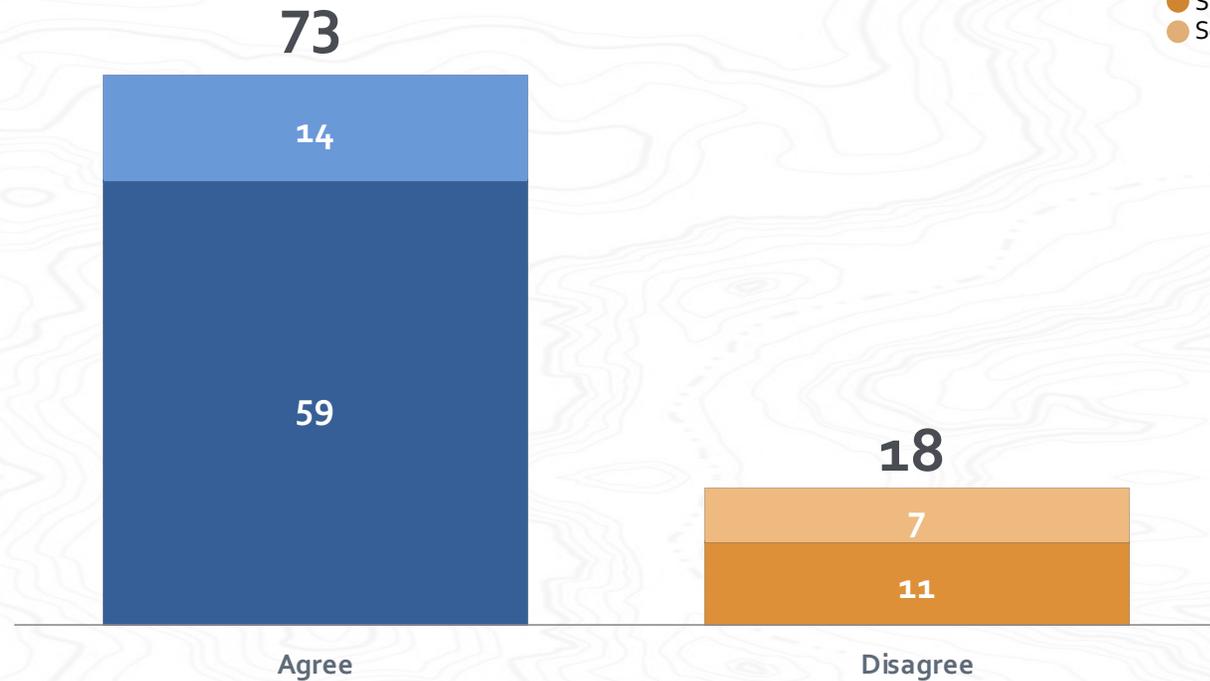

BIG TECH MODERATION

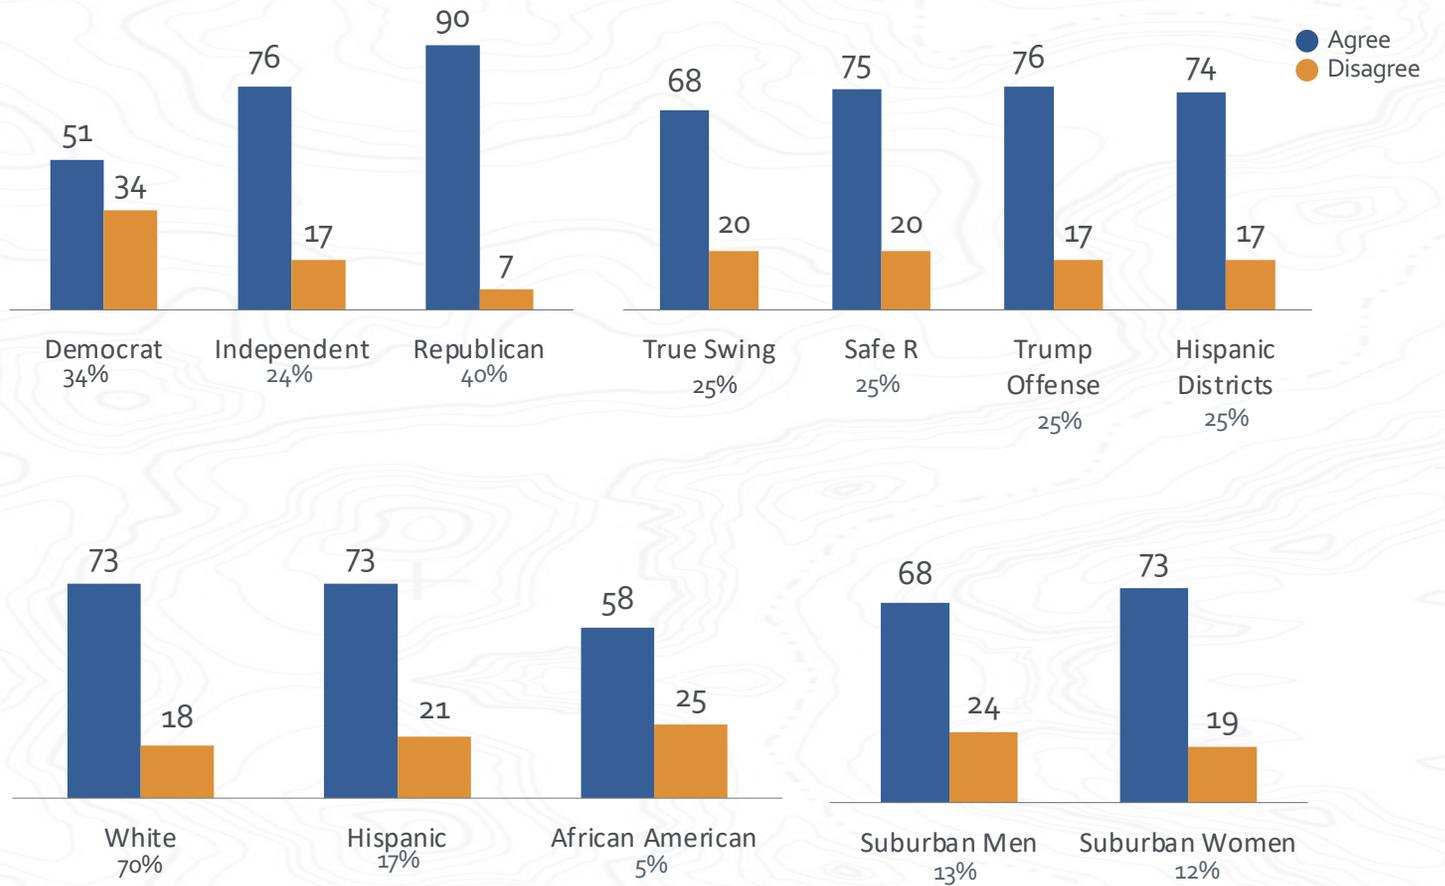

Big tech companies monitor your personal data and habits and sell this information to the highest bidder. Meanwhile, companies like Twitter and Facebook removed posts that suggested Covid-19 leaked from a lab in Wuhan, China and companies like Apple allow the Chinese government to monitor its data. Big tech's hypocrisy and bias against Americans needs to be exposed and privacy must be increased.

Now I am going to read you statement from some who oppose critical race theory. Please tell me if you agree or disagree with the following statement. Although the United States, like most nations, has struggled with racism in the past it was not built on white supremacy and we are not a fundamentally racist country today.

CRITICAL RACE THEORY

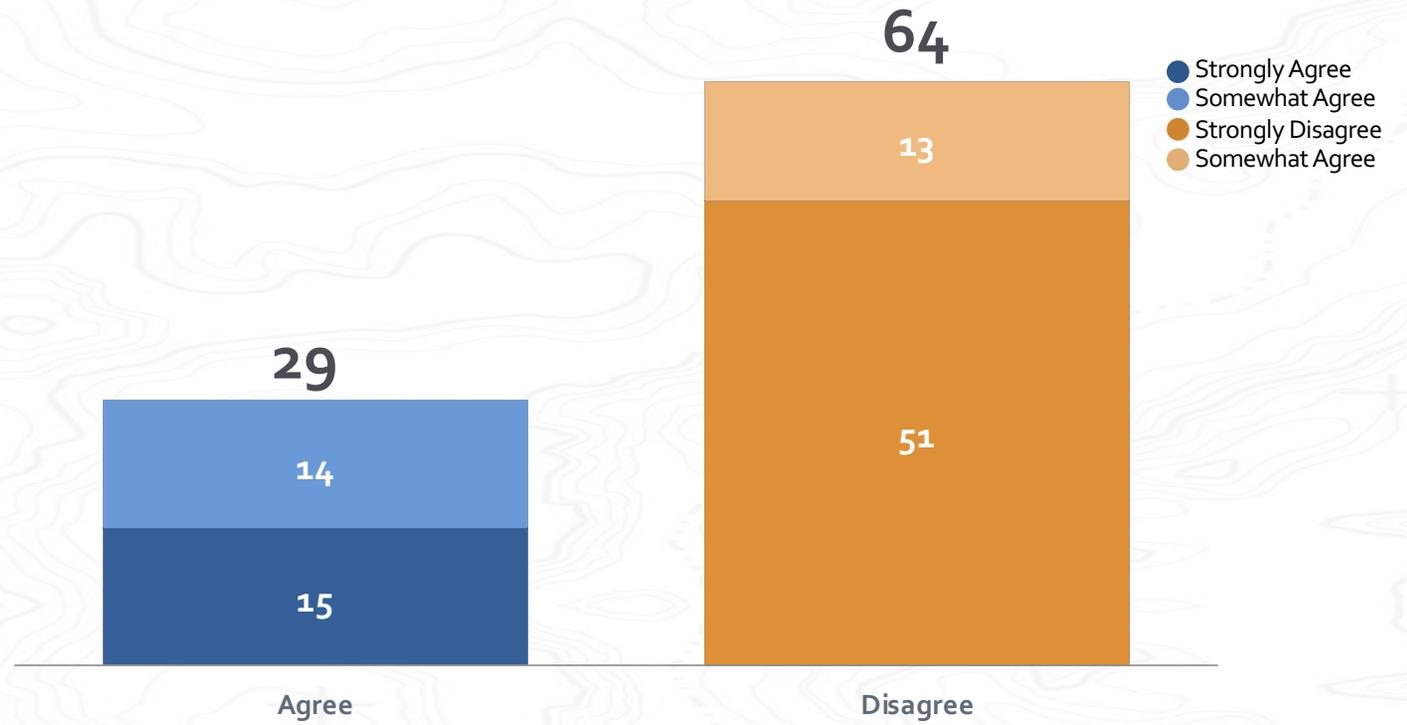

CRITICAL RACE THEORY

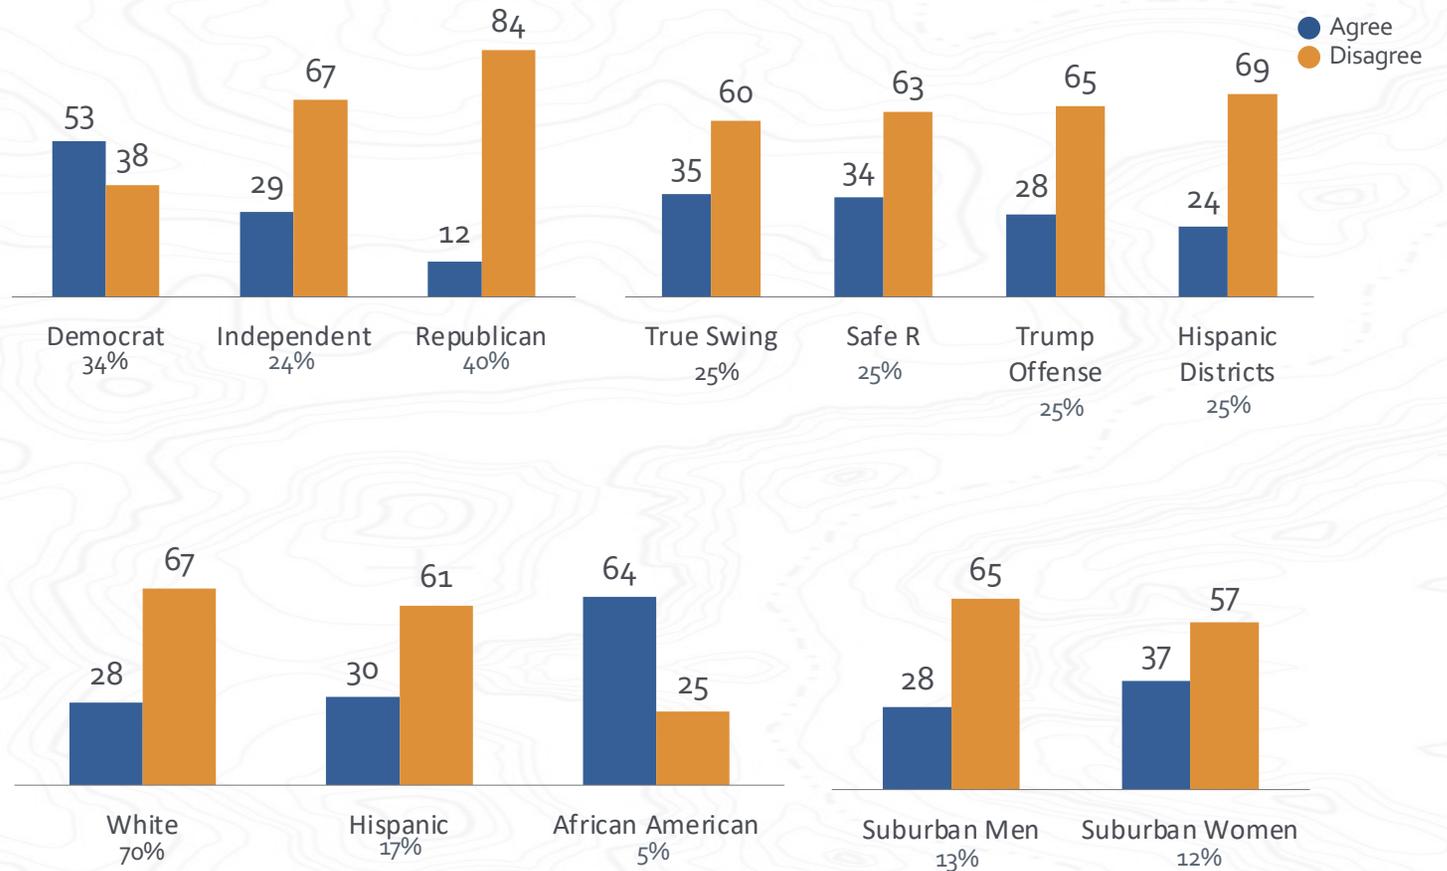

White Americans are inherently racist whether they know it or not because they benefit from the American culture of systematic racism and white privilege.

AMERICAN SYSTEMATIC RACISM

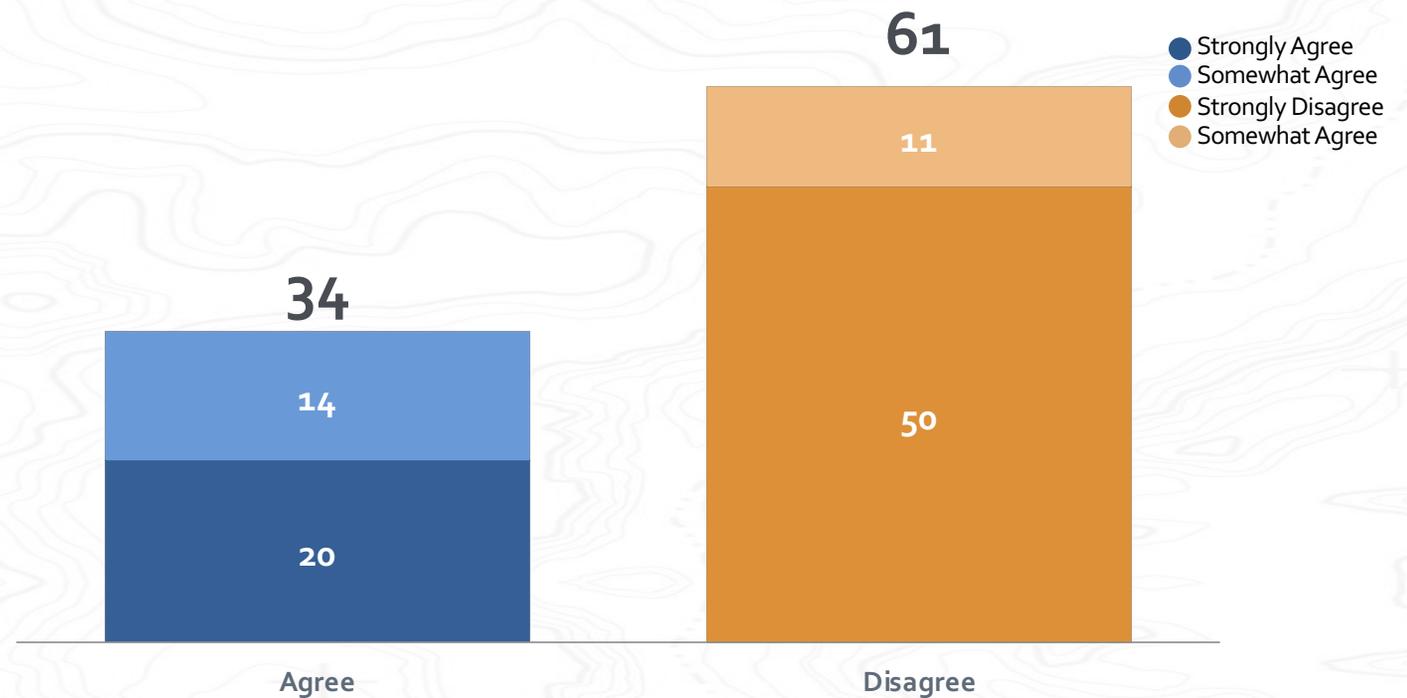

AMERICAN SYSTEMATIC RACISM

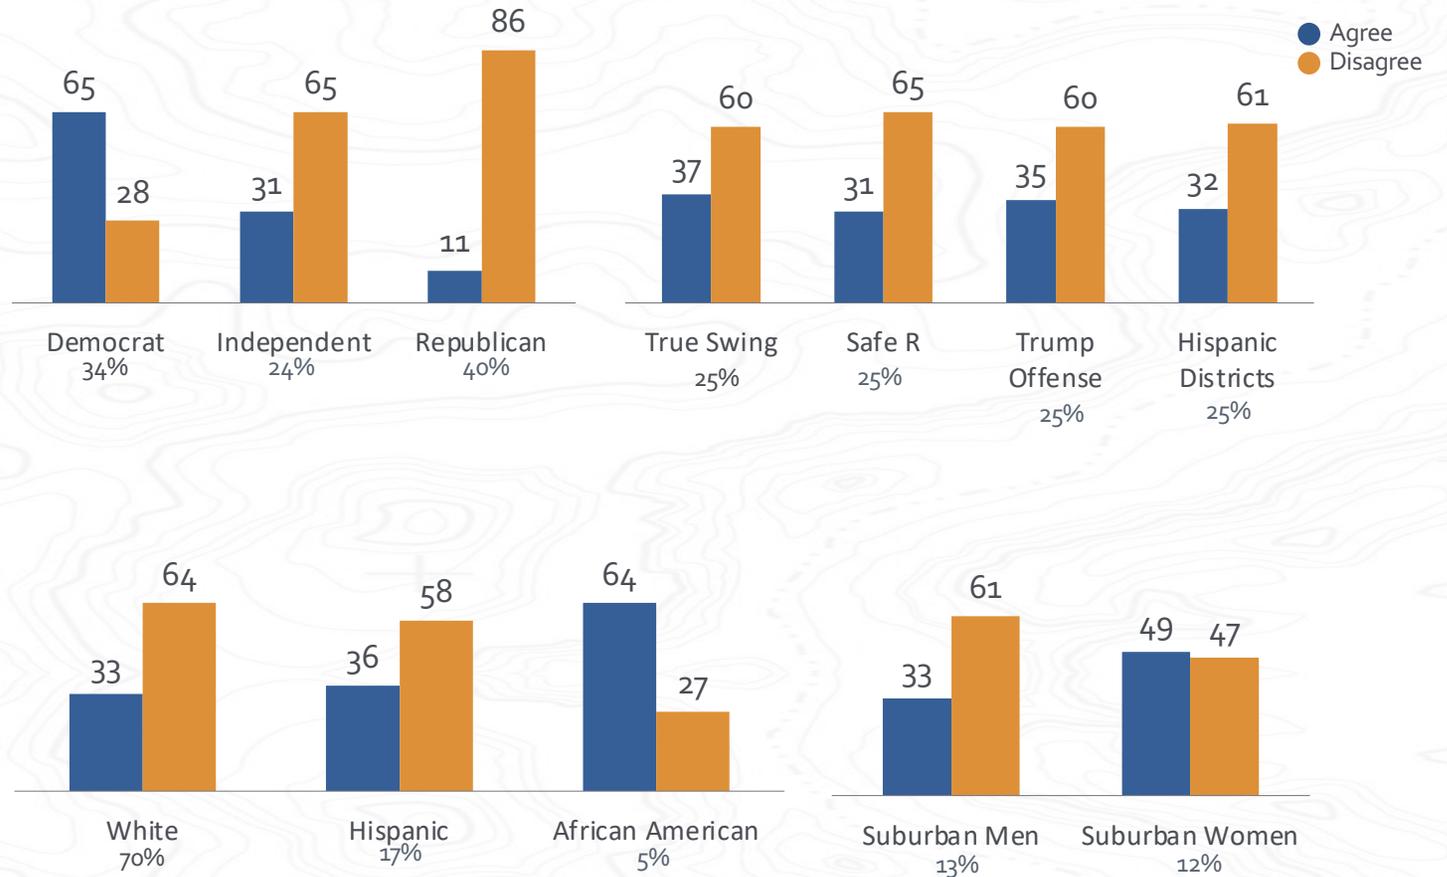

The United States is inherently a racist country, because it was founded on slavery and white supremacy, which made white people wealthier to this day.

FOUNDED ON
SLAVERY AND
WHITE
SUPREMACY

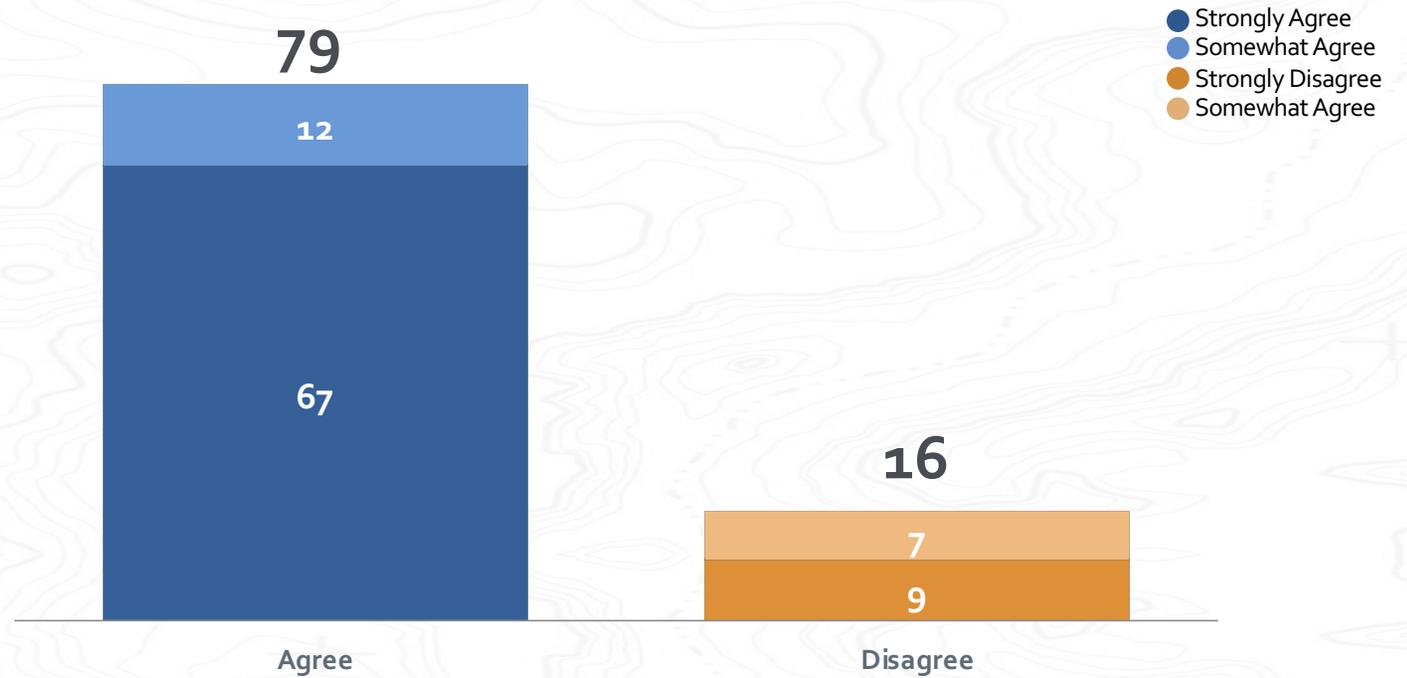

FOUNDED ON SLAVERY AND WHITE SUPREMACY

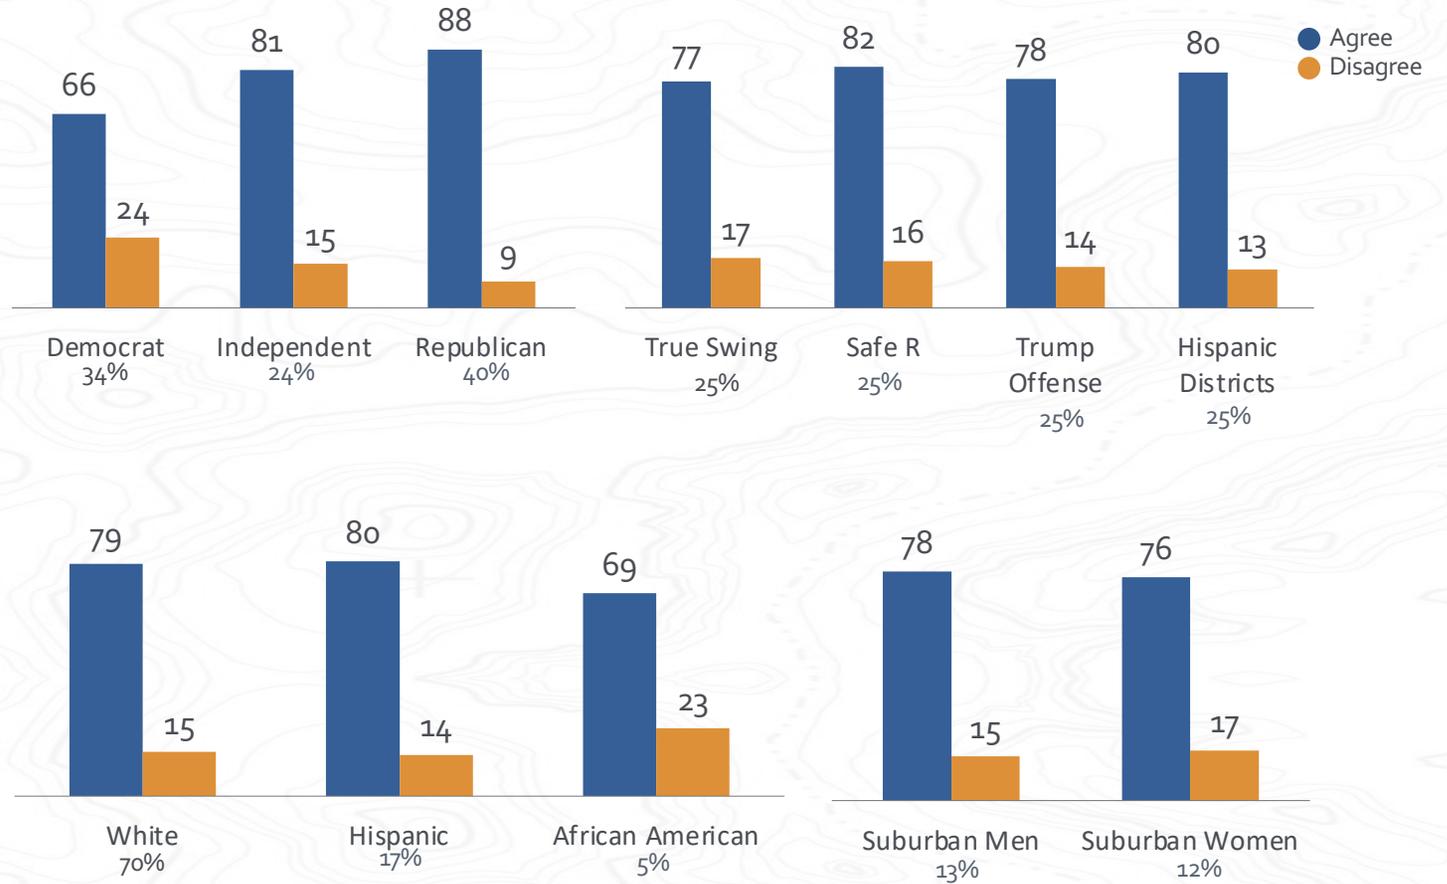

Children should never be taught that their destiny and inherent value depends on their skin color. Instead, American schools should be teaching American children about the American dream that is available to them.

Republicans and Democrats both agree that China has used unfair trade practices for decades, heavily subsidizing Chinese companies to give them an unfair advantage over U.S. companies. Now I'm going to read you a short description of three ideas about how to protect American jobs and combat unfair Chinese economic policies. Please tell me which one you most agree with.

Some people say we should impose economic sanctions on Chinese industries and levy tariffs on Chinese products until China stops using unfair trade practices and agrees to play fair.

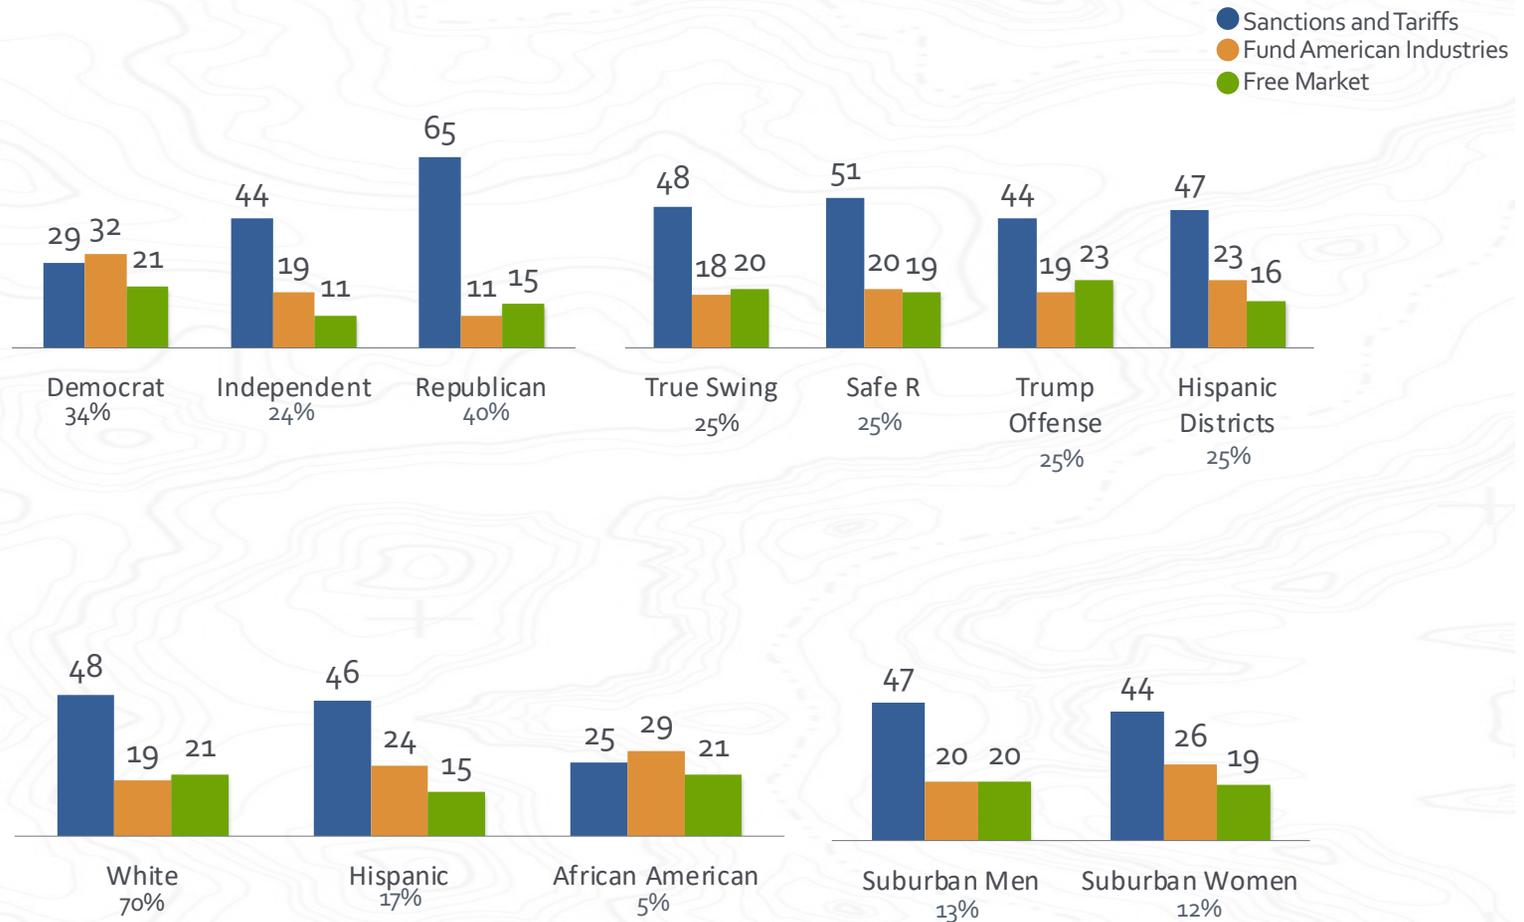

Other people say we should create a 250 billion dollar Federal fund to support and subsidize American companies to make them more competitive against Chinese companies both here and around the world.

Still other people say we shouldn't create big government funds to subsidize American companies or place tariffs on Chinese products because such policies always end up increasing our national debt and driving up the price of all good for American consumers.

ENDLESS
FRONTIER

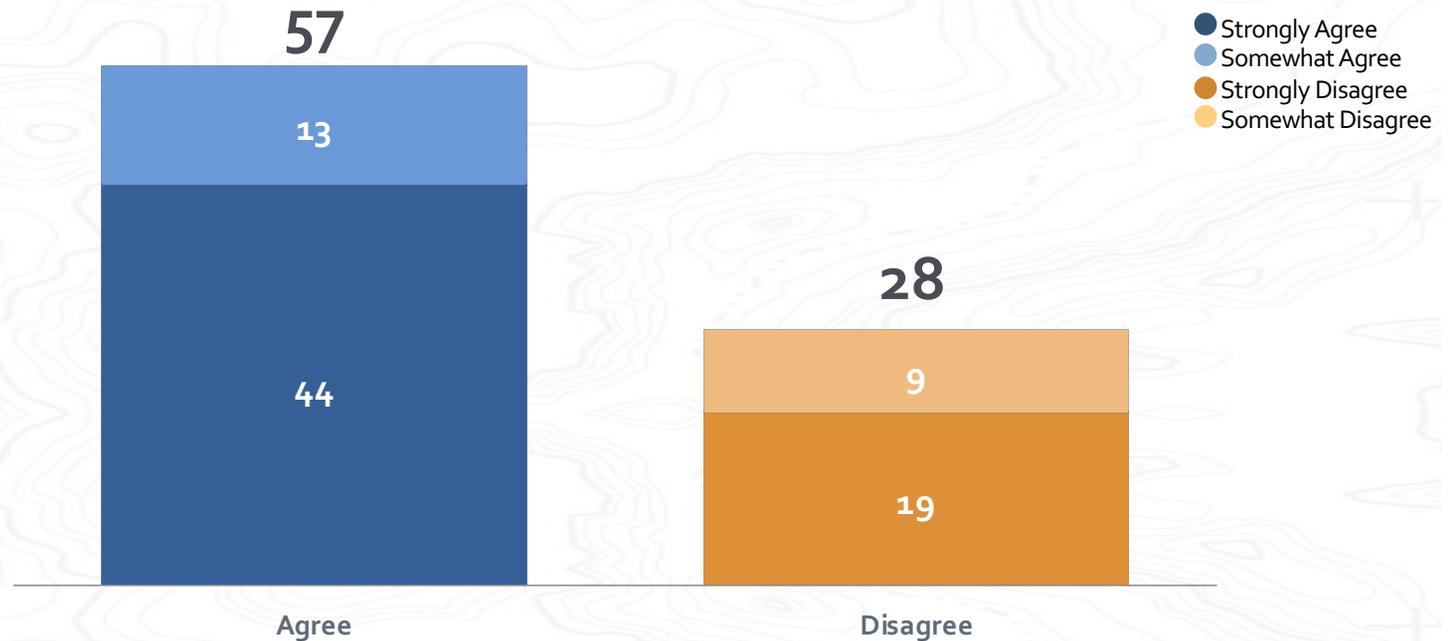

ENDLESS FRONTIER

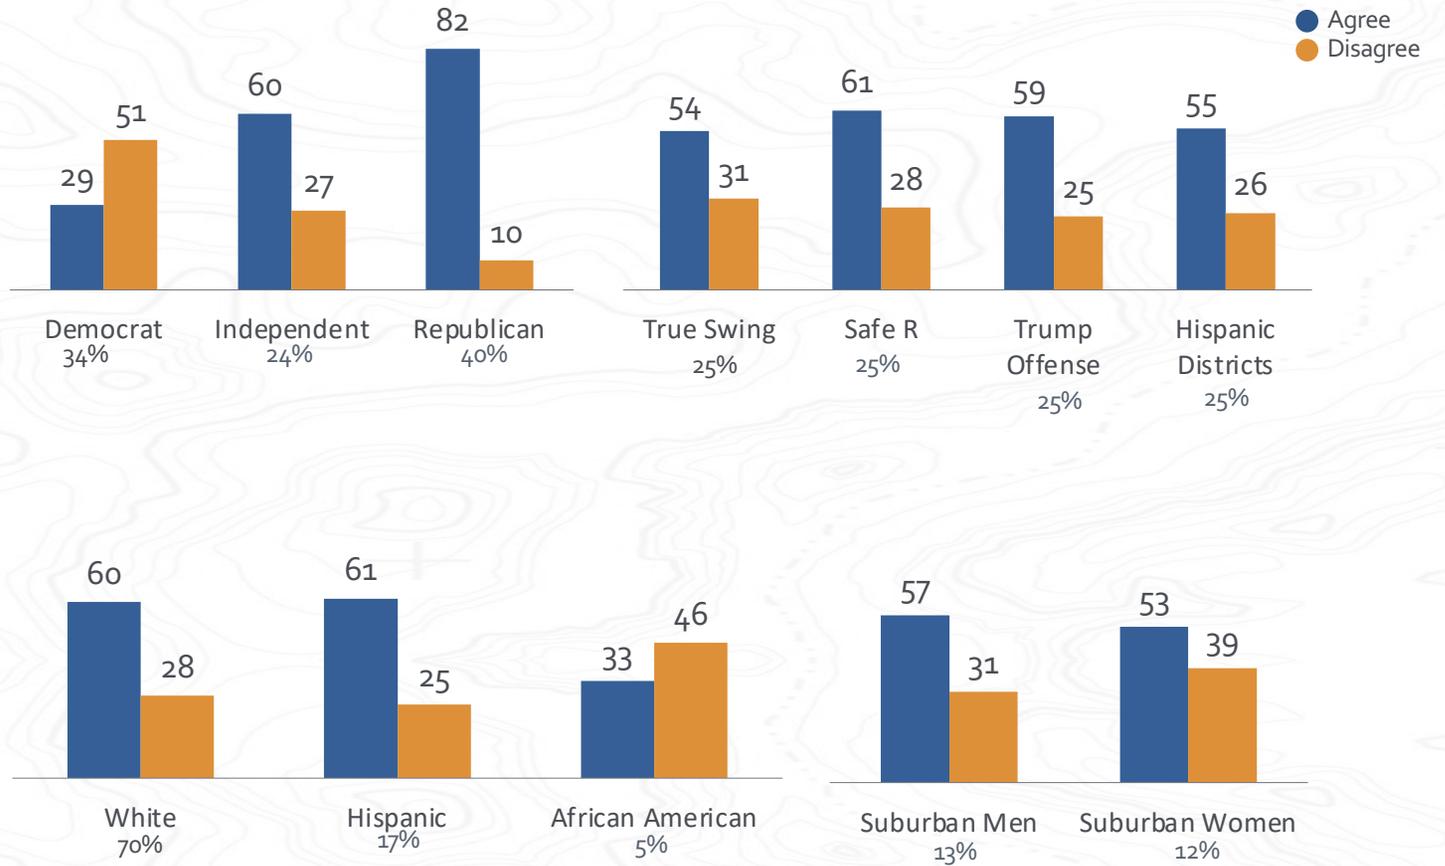

As you may know, a new report has shown that the COVID-19 virus likely could have resulted from a leak from a Chinese Virology lab. For the past year Democrats and the media have refused to take any claim of this possibility seriously and even called the very notion racist. With this in mind do you agree or disagree with the following statement? Democrats and the media have been far too weak on China by taking the Communist Government’s propaganda as fact and calling American citizens racist for suggesting that the virus leaked from the Chinese Virology lab in Wuhan, instead of looking for the true origins of the virus that has killed hundreds of thousands of Americans.
